AVERY DENNISON CORPORATION AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

1. GENERAL

The accompanying unaudited consolidated financial statements include normal recurring adjustments necessary for a fair presentation of the Company's interim results. Certain prior year amounts have been reclassified to conform with current year presentation. The condensed financial statements and notes in this Form 10-Q are presented as permitted by Regulation S-X, and as such, they do not contain certain information included in the Company's 1996 annual financial statements and notes.

The third quarters of 1997 and 1996 consisted of thirteen-week periods ending September 27, 1997 and September 28, 1996, respectively. The interim results of operations are not necessarily indicative of future financial results.

2. FOREIGN CURRENCY TRANSLATION

Transactions in foreign currencies and translation of the financial statements of subsidiaries which operate in hyperinflationary economies during 1997 resulted in losses of \$.5 million and \$.9 million, respectively, during the three and nine months ended September 27, 1997. During 1996, the Company recorded losses of \$.8 million and \$1.9 million, respectively, during the three and nine months ended September 28, 1996. Operations in hyperinflationary economies consist of the Company's Brazilian operations for 1997 and 1996 and Mexican operations for 1997.

3. FINANCIAL INSTRUMENTS

The Company enters into forward foreign exchange contracts, interest rate contracts and foreign exchange options to manage exposure to fluctuations in foreign currency exchange and interest rates. The Company does not hold or issue financial instruments for trading purposes.

Forward foreign exchange contracts and foreign exchange options that hedge existing assets, liabilities or firm commitments are measured at fair value and the related gains and losses on these contracts are recognized in net income currently. Forward foreign exchange contracts and foreign exchange options that hedge forecasted transactions are measured at fair value and the related gains and losses on these contracts are deferred and subsequently recognized in net income in the period in which the underlying transaction is consummated. In the event that an anticipated transaction is no longer likely to occur, the Company recognizes the change in fair value of the instrument in net income currently.

AVERY DENNISON CORPORATION AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

3. FINANCIAL INSTRUMENTS (CONTINUED)

Gains and losses resulting from forward foreign exchange contracts and foreign exchange options are recorded in the same category as that arising from the related item being hedged. Cash flows from the use of financial instruments are reported in the same category as the hedged item in the statement of cash flows. Gains and losses on contracts used to hedge the value of investments in certain foreign subsidiaries are included in the cumulative foreign currency translation adjustment component of shareholders' equity.

The net amounts paid or received on interest rate agreements are recognized as adjustments to interest expense over the terms of the agreements. Contract premiums paid, if any, are amortized to interest expense over the terms of the underlying instruments.

4. INVENTORIES

Inventories consisted of (in millions):

	September 27, 1997	December 28, 1996
Raw materials	\$ 75.5	\$ 82.7
Work-in-progress	69.9	72.4
Finished goods	114.4	123.4
LIFO adjustment	(32.7)	(34.1)
	\$227.1	\$244.4
	=====	=====

5. INTANGIBLES RESULTING FROM BUSINESS ACQUISITIONS

Accumulated amortization of intangible assets at September 27, 1997 and December 28, 1996 was \$47.6 and \$46.6 million, respectively.

6. RESEARCH AND DEVELOPMENT

Research and development expense for the three and nine months ended September 27, 1997 was \$14.4 million and \$45 million, respectively. For the three and nine months ended September 28, 1996, research and development expense was \$12.8 million and \$39.3 million, respectively.

AVERY DENNISON CORPORATION AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

7. CONTINGENCIES

The Company has been designated by the U.S. Environmental Protection Agency (EPA) and/or other responsible state agencies as a potentially responsible party (PRP) at 17 waste disposal or waste recycling sites which are the subject of separate investigations or proceedings concerning alleged soil and/or groundwater contamination and for which no settlement of the Company's liability has been agreed upon. Litigation has been initiated by a governmental authority with respect to two of these sites, but the Company does not believe that any such proceedings will result in the imposition of monetary sanctions. The Company is participating with other PRPs at all such sites, and anticipates that its share of cleanup costs will be determined pursuant to remedial agreements entered into in the normal course of negotiations with the EPA or other governmental authorities.

The Company has accrued liabilities for all sites, including sites in which governmental agencies have designated the Company as a PRP, where it is probable that a loss will be incurred and the minimum cost or amount of loss can be reasonably estimated. However, because of the uncertainties associated with environmental assessment and remediation activities, future expense to remediate the currently identified sites, and sites which could be identified in the future for cleanup, could be higher than the liability currently accrued. Based on current site assessments, management believes that the potential liability over the amounts currently accrued would not materially affect the Company.

The Company and its subsidiaries are involved in various other lawsuits, claims and inquiries, most of which are routine to the nature of the business. In the opinion of management, the resolution of these matters will not materially affect the Company.

8. NET INCOME PER SHARE

Net income per common share is computed by dividing net income by the weighted-average number of common shares outstanding. Net income per fully diluted common share is computed by dividing net income by the weighted-average number of common shares and common share equivalents outstanding. Common share equivalents include shares issuable upon the assumed exercise of outstanding stock options.

AVERY DENNISON CORPORATION AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

9. NEW ACCOUNTING STANDARDS

In February 1997, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards (SFAS) No. 128, "Earnings per Share (EPS). The standard will require the Company to present both "basic" and "diluted" EPS. The new requirements will be effective the fourth quarter of 1997; earlier adoption is not allowed. At the present time, the impact of the new standard is not expected to be material.

In June 1997, the FASB issued SFAS No. 130, "Reporting Comprehensive Income". The standard establishes guidelines for the reporting and display of comprehensive income and its components in financial statements. Comprehensive income includes items such as foreign currency translation adjustments and adjustments to the minimum pension liability that are currently presented as components of shareholders' equity. Companies will be required to report total comprehensive income for interim periods beginning first quarter of 1998. Disclosure of comprehensive income and its components will be required beginning fiscal year end 1998.

Also in June 1997, the FASB issued SFAS No 131, "Disclosures About Segments of an Enterprise and Related Information". The standard establishes guidelines for reporting information on operating segments in interim and annual financial statements. The new rules will be effective for the 1998 fiscal year. Abbreviated quarterly disclosure will be required beginning first quarter of 1999, with both 1999 and 1998 information. The Company does not believe that the new standard will have a material impact on the reporting of its segments.

10. DIVESTITURE, RESTRUCTURING AND ASSET IMPAIRMENTS

During the third quarter of 1996, a divestiture, business restructuring actions and a charge for impairment of long-lived assets resulted in a net pretax gain of \$2.1 million. The Company sold its joint venture converting operation in Japan for \$28.4 million, resulting in a pretax gain of \$17.9 million. The Company also recorded a charge for an impairment of long-lived assets and restructuring actions, which, combined, had an estimated cost of \$15.8 million. An asset impairment write-down of \$6.3 million was recognized for long-lived assets held in the Company's Consumer and converted products sector. The restructuring actions included the reorganization of certain manufacturing, distribution and administrative sites. These costs consisted of severance and related costs for approximately 200 positions worldwide (\$7.4 million) and the discontinuance of product lines and related asset disposals (\$2.1 million). The Company's restructuring program was completed as of the third quarter of 1997 and is likely to result in estimated annual savings of approximately \$9 million to \$11 million.

AVERY DENNISON CORPORATION AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

11. SUBSEQUENT EVENT

On October 23, 1997, the Board of Directors declared a quarterly cash dividend, one cent of which related to the redemption of the Preferred Stock Purchase Rights previously issued on each outstanding share of common stock. The dividend is payable on December 17, 1997 to stockholders of record at the close of business on December 3, 1997. In connection with the dividend declaration and the redemption of the existing rights (which were scheduled to expire on June 30, 1998), the Company adopted a new rights plan with terms substantially similar to the existing rights. The new rights are scheduled to expire on October 31, 2007.

RESULTS OF OPERATIONS: FOR THE QUARTER

Quarterly sales increased to \$835.6 million, a 2 percent increase over third quarter 1996 sales of \$819.3 million. Excluding changes in foreign currency rates, sales increased 5.4 percent.

The gross profit margin increased to 32.3 percent for the quarter compared to 31.8 percent for the third quarter of 1996. The increase was due primarily to increased productivity, cost control and an improved product mix. Marketing, general and administrative expense, as a percent of sales, was 22 percent compared to 22.1 percent for the third quarter of 1996.

During the third quarter of 1996, a charge for an impairment of long-lived assets and business restructuring actions was taken which resulted in a net pretax gain of \$2.1 million. The Company sold its joint venture operation in Japan for \$28.4 million, resulting in a pretax gain of \$17.9. The Company also recorded a charge for an impairment of long-lived assets and a restructuring program, which combined, had a cost of \$15.8 million. An asset impairment writedown of \$6.3 million was recognized for long-lived assets held in the Company's Consumer and converted products sector. The restructuring program included the reorganization of certain manufacturing, distribution and administrative sites. These costs consisted of severance and related costs for approximately 200 positions worldwide (\$7.4 million) and the discontinuance of product lines and related asset write-offs (\$2.1 million). The Company's restructuring program was completed as of the third quarter of 1997 and is likely to result in estimated annual savings of approximately \$9 million to \$11 million.

Interest expense declined to \$8 million for the third quarter of 1997 compared to \$10.1 million a year ago, due to lower weighted-average interest rates and lower average borrowings. Income before taxes, as a percent of sales, increased to 9.4 percent for the quarter from 8.7 percent. The effective tax rate for the quarter was 32.7 percent in 1997 and 34.7 percent in the same period last year. The change reflects an increase in U.S. tax credits for research and experimentation.

Net income increased 12.9 percent to \$52.6 million compared to \$46.6 million in the third quarter of 1996. Net income per common share for the quarter was \$.51 compared to \$.45 in the same period last year, a 13.3 percent increase. Net income per fully diluted common share was \$.50 for the third quarter of 1997 and \$.43 for the same period last year, a 16.3 percent increase.

Results of Operations by Business Sector

The Pressure-sensitive adhesives and materials sector reported increased sales and profitability for the third quarter of 1997 compared to the same period last year. The U.S. operations' sales growth was primarily led by increased sales volume for North American roll paper and films. Profitability for the U.S. operations increased primarily due to improved inventory management, capacity utilization and expenditures made in the prior year to enhance operating efficiency. The international businesses reported increased sales and profitability. The improvements were primarily due to higher unit volume and geographic expansion, which was partially offset by changes in foreign currency rates.

The Consumer and converted products sector reported increased sales and profitability for the third quarter of 1997 compared to the same period last year. Increased sales in the U.S. operations continue to be led by growth of new products and its Avery-brand products. The increase in sales growth in the U.S. was impacted by inventory adjustments by certain major retailers during July and August. However, sales to these customers rebounded in September and point-of-sale data obtained from these customers indicated no fundamental change in demand for Avery-brand products. Profitability in the U.S. increased primarily due to an improved product mix. In addition, during the third quarter of 1996, the U.S. operations reported an asset impairment write-down of \$6.3 million and the discontinuance of a product line and its related assets for \$2.1 million. Sales for the international businesses increased primarily due to geographic expansion, but were partially offset by sales declines at certain European operations. Profitability for the international businesses was primarily impacted by decreased European sales and investment for the market expansion of new products.

RESULTS OF OPERATIONS: NINE MONTHS YEAR-TO-DATE

Sales for the first nine months of 1997 were up 4 percent to \$2.5 billion compared to the corresponding period of 1996. Excluding changes in foreign currency rates, sales increased 6.4 percent.

The gross profit margin for the first nine months was 32.2 percent compared to 31.3 percent in the prior year. The increase was primarily due to increased productivity, cost control and an improved product mix. Marketing, general and administrative expense, as a percent of sales, for the first nine months was 22 percent for both periods.

A divestiture, business restructuring actions and an impairment for long-lived assets were taken during the third quarter of 1996 resulting in a net pretax gain of \$2.1 million.

RESULTS OF OPERATIONS: NINE MONTHS YEAR-TO-DATE (CONTINUED)

Interest expense declined to \$25.3 million for the first nine months compared to \$28.4 million for the first nine months of 1996. The decrease was primarily due to lower weighted-average interest rates and lower average borrowings. Income before taxes, as a percent of sales, was 9.1 percent for the first nine months of 1997 compared to 8.2 percent for 1996. The year-to-date effective tax rate declined to 34.2 percent in 1997 compared to 35.3 percent in 1996 due to an increase in U.S. tax credits for research and experimentation.

Net income was \$150.4 million for the first nine months of 1997 compared to \$128.2 million for the first nine months of 1996, a 17.3 percent increase. Net income per common share increased 19.7 percent to \$1.46 for the first nine months of 1997 compared to \$1.22 for the same period last year. Net income per fully diluted common share was \$1.41 for the first nine months of 1997 compared to \$1.18 for the same period last year, a 19.5 percent increase year over year.

Results of Operations by Business Sector

The Pressure-sensitive adhesives and materials sector reported increased sales and profitability for the first nine months of 1997 compared to the same period last year. The U.S. operations' sales growth was primarily led by increased sales volume for new products. Profitability for the U.S. operations increased primarily due to improved inventory management, capacity utilization and expenditures made in the prior year to enhance operating efficiency. The international businesses reported increased sales and profitability primarily due to higher unit volume and geographic expansion, which was partially offset by changes in foreign currency rates.

The Consumer and converted products sector reported increased sales and profitability for the first nine months of 1997 compared to 1996. Increased sales in the U.S. operations continue to be led by growth of its Avery-brand products, new products and other consumer products. Profitability in the U.S. businesses improved primarily as a result of new products and an improved product mix. In 1996, the U.S. operations recorded an asset impairment writedown of \$6.3 million and the discontinuance of a product line and its related assets for \$2.1 million. Sales for the international businesses were impacted by changes in foreign currency and sales declines at certain European operations, but were partially offset by growing sales from geographic expansion businesses. Profitability for the international businesses was primarily impacted by operations in France, decreased sales at selected European operations due to the softness of certain economies, and investment for the market expansion of new products.

FINANCIAL CONDITION

- -----

Average working capital, excluding short-term debt, as a percentage of sales, decreased to 8.1 percent for the quarter from 9 percent a year ago. This improvement was a result of reduced days sales outstanding in accounts receivable, improved inventory turnover and better payables management. Average inventory turnover for the third quarter was 10 inventory turns compared to 9.2 inventory turns a year ago; the average number of days sales outstanding in accounts receivable was 54 days compared to 57 days a year ago.

Net cash flows provided by operating activities totaled \$210.4 million for the first nine months of 1997 compared to \$168 million for the same period in 1996. The increase in net cash flows provided by operating activities is primarily due to an increase in net income and changes in working capital requirements.

Capital spending for the quarter was \$36.5 million compared to \$36.7 million a year ago. For the nine months, capital spending totaled \$104.1 million compared to \$110.6 million a year ago. Total capital spending for 1997 is expected to be approximately \$170 to \$180 million.

During the first nine months of 1997, total debt increased \$21.8 million to \$488.7 million from year end 1996. During the fourth quarter of 1996, the Company registered with the Securities and Exchange Commission, \$150 million in principal amount of medium-term notes. During the third quarter of 1997 and early October, \$60 million in notes were issued. Proceeds from the medium-term notes were used to reduce debt and for other general corporate purposes.

Shareholders' equity decreased to \$826.1 million from \$832 million at year end 1996. During the third quarter of 1997, the Company purchased approximately 401,000 shares of common stock at a cost of \$16.9 million. For the first nine months of 1997, the Company purchased 1.5 million shares of common stock at a cost of \$57.6 million. The market value of shares held in the employee stock benefit trust, after the issuance of shares under the Company's stock and incentive plans, increased by \$21.7 million to \$666 million from year end 1996. Total debt to total capital was 37.2 percent as of the end of third quarter 1997 and 35.9 percent at year end 1996.

During the first quarter of 1997, the Company adopted SFAS No. 125, "Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities". The standard revised the guidelines for recognition, measurement and disclosure of transfers and servicing of financial assets and extinguishments of debt. The Company's implementation of the new standard had no effect on the first quarter of 1997 financial statements.

FUTURE ACCOUNTING REQUIREMENTS

In February 1997, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards (SFAS) No. 128, "Earnings per Share" (EPS). The standard will require the Company to present both "basic" and "diluted" EPS. The new requirements will be effective the fourth quarter of 1997; earlier adoption is not allowed. At the present time, the impact of the new standard is not expected to be material.

In June 1997, the FASB issued SFAS No. 130, "Reporting Comprehensive Income". The standard establishes guidelines for the reporting and display of comprehensive income and its components in financial statements. Comprehensive income includes items such as foreign currency translation adjustments and adjustments to the minimum pension liability that are currently presented as components of shareholders' equity. Companies will be required to report total comprehensive income for interim periods beginning first quarter of 1998. Disclosure of comprehensive income and its components will be required beginning fiscal year end 1998.

Also in June 1997, the FASB issued SFAS No. 131, "Disclosures About Segments of an Enterprise and Related Information". The standard establishes guidelines for reporting information on operating segments in interim and annual financial statements. The new rules will be effective for the 1998 fiscal year. Abbreviated quarterly disclosure will be required beginning first quarter of 1999, with both 1999 and 1998 information. The Company does not believe that the new standard will have a material impact on the reporting of its segments.

SAFE HARBOR STATEMENT

- -----

The matters described or referred to in the Form 10-Q include forward-looking statements regarding future events. Factors which could cause actual results to differ materially from those projected include risks and uncertainties relating to investment in new production facilities, timely development and successful marketing of new products, impact of competitive products and pricing, fluctuations in foreign exchange rates, changes in economic conditions, and other factors, including those described or referred to in the Company's SEC filings, including its Form 10-K for the year ended December 28, 1996

PART II. OTHER INFORMATION AVERY DENNISON CORPORATION AND SUBSIDIARIES

ITEM 6. EXHIBITS AND REPORTS ON FORM 8-K

- a. Exhibits:
 11 Computation of Net Income Per Share Amounts
 12 Computation of Ratio of Earnings to Fixed Charges
 27 Financial Data Schedule
- b. Reports on Form 8-K: There were no reports on Form 8-K filed for the three months ended September 27, 1997. However, Registrant filed the Current Report on Form 8-K dated October 24, 1997, in connection with the declaration of a dividend of one preferred share purchase right for each outstanding share of common stock payable on December 17, 1997 to stockholders of record on December 3, 1997.

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.

AVERY DENNISON CORPORATION
(Registrant)

Exhibit 11

AVERY DENNISON CORPORATION COMPUTATION OF RATIO OF EARNINGS TO FIXED CHARGES (DOLLARS IN MILLIONS)

	Three Months Ended		Nine Months Ended	
	September 27, 1997	September 28, 1996	September 27, 1997	
Earnings: Income before taxes	\$78.2	\$71.4	\$228.6	\$198.0
Add: Fixed charges*	12.3	14.9	38.7	42.3
Amortization of capitalized interest	0.4	0.3	1.0	1.0
Less: Capitalized interest	(0.5)	(1.0)	(1.8)	(2.6)
	\$90.4 =====	\$85.6 =====	\$266.5 =====	\$238.7 =====
*Fixed charges:				
Interest expense	\$ 8.0	\$10.1	\$ 25.3	\$ 28.4
Capitalized interest	0.5	1.0	1.8	2.6
Amortization of debt issuance costs	0.1	0.1	0.4	0.4
Interest portion of leases	3.7	3.7	11.2	10.9

	\$12.3	\$14.9	\$ 38.7	\$ 42.3
Ratio of Earnings to Fixed Charges	==== 7.3	==== 5.7	6.9	5.6
Natio of Earlitings to Fixed Charges	7.5 =====	=====	=====	=====

The ratios of earnings to fixed charges were computed by dividing earnings by fixed charges. For this purpose, "earnings" consist of income before taxes plus fixed charges (excluding capitalized interest), and "fixed charges" consist of interest expense, capitalized interest, amortization of debt issuance costs and the portion of rent expense (estimated to be 35%) on operating leases deemed representative of interest.

Exhibit 12
